James Vaughan Stevens
 Ca. German Consul

Perang (Malacca) B. 10/8. 92.

Dear Sir!

What may have been the cause of the delay on the money-matter you are, I can not tell, so far, but am glad, that all has been settled finally.

In regard to a new felt of research, you had alluded yourself to the Andamans, and if proposed Madagascar instead, but the Malayan Peninsula would have, of course, the first voice, as long as you think, that your work there is not finished yet.

Prof. Virchow will be of the same opinion and after having consulting with his (on his return to Berlin from the vacancies) I shall let you know, what he thinks of it - and how it stands with the means, which may be placed at our disposal (to continue the explorations you are)

Yrs. Best
 J. V. Stevens
