

Tuesday eve -

George, my darling,

All's well at home and the folks

are fine. Pop spoke with me early this

evening and told me about Bob, who

called from California. He's feeling fine,

expects to leave about the 27th of March

(in 6 weeks)

and would like to come home but because

of the time limit (10 days) and the fare

of \$200.00 decided against it. The next

fare he'll get will be in about

six months. I also explained to Pop that they

may not get too many letters this week

because of the load of your boxes.

In the letter which I received from you to day, you related the history of J. Gresham and also the fact that he's in N.Y. - I've already written yesterday all about the call. After knowing some of the details, I guess the happy married couple are really to be envied. We are lucky, darling, to have each other and love one another the way we do.

Of course, baby helps to make it just about perfect. He's so a honey and I can see your face so clearly when you'll see him in that wonderful reunion we hope to have real soon.

After mailing your letter last night, I listened to a swell Western Thriller -

"In Old Oklahoma" with Roy Rogers. I'll never grow up when I think of the fun I get out of cowboy stories. Do you see anything worthwhile in the camp shows? The ballet is coming to town and that's another sign of Spring. What delightful memories Lissell brings back to me. You decide and markova on the stage.

Very few calls to-day - just from the folks and my mother but the evening is still young. Baby is fast asleep and had plenty of fresh air and sunshine to-day. He slept just more than two hours outdoors and I actually woke him up - he needs plenty of sleep like his mommy. I only got 9 1/2 hrs. last night.

Took for the zone number in back of the
envelope because I don't know it offhand but
will inquire when I go down to mail this.

Just spoke to Addie and Sonny is laid up with
bronchitis and laryngitis. His regards to you.

Bought another bond (18.75) today
and kept the difference in cash I run short.
Will deposit what's left next month.

Good-night, sweetheart, keep well
and please, please be careful. All my
love and devotion to you and a great big
kiss from Sonny Jim. Love from your
Mum and P.P.

As always,
Florence

Harry Adams just called and spoke with me for
about 25 minutes. All is well with him and the
family. His best regards to you.
